

Best Keys for Top 175 Worship Songs

For maximum participation in worship, we need to sing songs in keys that the average singer can sing. Too often, worship leaders produce a culture of spectators by singing in keys beyond the capabilities of the congregation. Below is a list of the top CCLI worship songs. The *Ideal Keys* are the ones best suited for congregational singing of that song. More details, criteria used, rankings, and an audio of every song is available to stream by clicking on the audio link at: klamm.us/BestKeys.

Kenny Lamm, Worship & Music Consultant, Baptist State Convention of North Carolina

Explanation of symbols in this table

** Several songs are in a range much broader than is attainable by the average singer.

() Keys in parenthesis represent songs that have too wide a range, but the given key is closest to attainable.
